

## **NPI Engineer**

**Ref. NPI\_Engineer\_LT\_2404**

**Location: Kaunas, Lithuania**

### **About the job**

Do you only strive for customer excellence and do you want to grow your career in step with our company? Welcome to Carlo Gavazzi, where we are designing and manufacturing Industrial Automation Components.

Our Group's products (sensors, monitoring relays, timers, energy management systems, solid state-relays, safety devices, fieldbus systems) provide automation solutions for the global markets of industrial and building automation across Europe, the Americas and Asia-Pacific through a network of 23 owned sales companies and more than 60 independent national distributors.

Carlo Gavazzi Kaunas is currently looking for a talented and passionate **NPI Engineer** for its Sensors Product Line, who will be part of the engineering team and will directly report to the Factory Manager.

### **Key tasks and Responsibilities**

- "New Product Introduction" in the sourcing company by corporation with local and international R&D teams.
- Local coordination of NPI tasks between sourcing, manufacturing, planning, quality, and production technology.
- Engage with R&D project-teams from concept stage, to jointly design the production process and give feedback on "Design for Manufacturing".
- Coordinating and managing: production file, BOM, jigs, tools, fixtures, and test equipment, on products released to manufacturing.
- Planning manufacturing of prototypes and pilot-series production with R&D project leader, feeding back issues to R&D team.
- Maintaining the manufacturability of existing products, such as reporting yield issues back to R&D and updating BOM.
- Lead PFMEA process on new products and follow-up on the set tasks.
- Suggest topics for optimization of production processes.

## Qualifications

Sounds great! Am I the **NPI Engineer** you are looking for? Let's see:

- Experienced in electronic design, mainly: small signal analog, microcontrollers, and AD-converters.
- Experienced in product validation and writing test-reports.
- Coordination skills across departments internally and internationally, both in-person communication and virtual meetings.
- Education at Technician or Engineering level.
- Language English and Danish written and spoken.

## Benefits

Why should you apply?

- You will be joining a team of enthusiastic and passionate colleagues.
- You will be working on selling truly unique products, end-to-end. Yes, you can be an inventor! There is nothing more thrilling than seeing your work out there on the market.
- Carlo Gavazzi is a fast-growing company, so you can grow with us and grow in your area of expertise or interest.

And yes, Carlo Gavazzi is an award-winning company! We want to excel in what we do, it's no walk in the park but our hard work pays off.
